APRIL 1997 ISSUE

## **PRESIDENT'S MESSAGE**

The Bel-Air Bay Club was the beautiful setting for our March meeting. Jake Ticsay and Catering Manager Madeline pulled out all the stops for our chapter. The food and beverage service was superb, and the club was extremely generous to us.

Julia Ryder from Jeffer, Mangles, Butler and Marmaro LLP spoke to us about how to maximize recovery after a major disaster, complete with handouts. If you missed this informative meeting and would like a copy of the handout, just contact a board member.

See the side bar for details on the April meeting, and plan ahead for the May 14th meeting at the Wyndham Checkers Hotel which is always a treat. This year the board tried to vary the locations of the meetings (airport, downtown, west side, etc.) to make it more convenient. In some ways, the results were disappointing. The number of people who attended the meetings were not as expected.

The board would like your feedback and suggestions. As always, any member may attend the board meeting

which is held at 5pm on the day of the dinner meeting. Your input and suggestions are welcome and appreciated.

Being an active participant in your chapter only enhances your IAHA benefits! If you plan to attend the board meeting, please note it on your RSVP form for April so we have space set aside for you. Also, we are on the lookout for new board members for 97-98. Let a current board member know if you are interested in this great opportunity!

The June cruise will not get out of the dock after all - the lack of sponsorship would put the financial health of our chapter in jeopardy. That fact, along with increased costs and higher than expected minimum attendance guarantees, forced the board to this decision. We have received some good ideas for alternatives that would be cost-effective for the chapter and our members. A barbecue picnic at a park or beach would be perfect for family and kids; an evening at the Greek is also under consideration. With L.A. as our backyard we should be able to put something together that appeals to the majority of the group. Please speak up on the issue!

In May we plan to award the Student Scholarship, so be sure

## Presidents Message continued from page 1

to bring your business cards to the next two meetings and be generous at the fishbowl! Remember, you were probably a struggling student once too!

Just to let you know, Raleigh Enterprises, the company I have been employed by for the last six years, experienced a planned downsizing and I am no longer affiliated with them. While I enjoyed the time spent there, I am looking forward to new opportunities! I talked with many of you often, shared information, offered and received direction on ticklish hotel concerns, etc. So, don't be strangers! I can now be reached at (310) 842-9670. See you at the Peninsula on the 17th!

## **This Month's Speaker....**

will be **Barbara Barshak**, a partner at Katz Cassidy, CPAs, located in West Los Angeles. Barbara will be speaking on "**Employer Tax Liability Threshold.**" She will also be discussing important **changes in IRS requirements.** These are subjects that affect all of us who deal with the reporting of taxes at our workplace. **Barbara is very knowledgeable in accounting issues within the hospitality industry and will welcome any questions from our group.** She has 20 years of experience in her field and specializes in dealing with the food and beverage industry, including retail and restaurants. Barbara has published several articles in magazines such as "Restaurant Business" and the California Restaurant Association periodical. She has also written pieces that have appeared on the World Wide Web. In addition, Barbara is an active member of many industry organizations including the Roundtable for Women in Food Service.

## **Look Out for This Upcoming Speaker Topic....**

### **"Choose Because You Can"**

1997 has seen the advent of a new age in local telephone service. Just like the late 1980's and the deregulation of the long distance monopolies, businesses are no longer being held hostage by the incumbent local phone companies. With this change, companies like ICG Telecom are providing an alternate solution. What that means is substantial savings, especially in the hotel industry where the telecommunication service adds to the profitability and the bottom line of hotel operations. With savings of up to 30-40%, that all adds up. Even the worst case scenario is a 10% savings. Knowing about the changes in local phone service in the Southern California market can be a simple way to increase profits, receive better service, and increase the bottom line profitability of your telecom revenue center.

Information provided by **Mark Wozniak of ICG Telecom Group, Inc.** Mark plans to talk to our chapter and provide us all with education concerning the deregulation of the local phone market. He will also demonstrate how through some analysis, a hotel or club can save thousands of dollars monthly.
